Welcome.

All files on your network have been encrypted.
Backups were also encrypted or deleted.

This process hasnt corrupted your files, it just modified them. Please note that this modification i
From this moment, it will be impossible to use files until they are decrypted.
The only way to decrypt your files is to obtain a private key.

Your files are not essential to us. We want to help you decrypt your files.
We prefer to conduct business honestly, without deceiving our customers.
Also, you can decrypt one file for free on our site: so you can be sure that we can decrypt your

To get more information and decrypt your files, follow this instruction:

a) Using the TOR Browser
   1) Download and install TOR browser from this site: https://torproject.org/
   2) Open our website: http://ytufnh2mbniwh437.onion/4XSXHCYILF95XM6U
   3) Follow the instructions on the site.
Note: this page can be opened only through the TOR browser
